

Sneha Iyer

Backend Engineer

sneha.iyer.sample@email.com | +91-98xxxxxx33 | Remote (India)

SAMPLE / PLACEHOLDER RESUME — fictional candidate, generated for testing the Phase 6 Recruitment Agent (resume-to-JD matching). Not a real person.

Summary

Backend engineer with 4 years building and maintaining production REST APIs, with a focus on reliability, validation, and test coverage.

Skills

Python, FastAPI, Django, PostgreSQL, Pydantic, pytest, Docker, Git, CI/CD (GitHub Actions)

Experience

Backend Engineer — Fenwick Systems (2022 - Present)

- Owned the core API layer for an internal analytics platform serving 40+ endpoints in production.
- Introduced Pydantic-based request validation, cutting malformed-request errors by 70%.
- Wrote and maintained a pytest suite covering core business logic, not just route handlers.

Software Engineer — Clarity Softworks (2021 - 2022)

- Built REST APIs in Django for a logistics tracking product.
- Set up basic Docker-based deployment for a staging environment.

Education

B.E. in Information Technology, Pune Institute of Computer Technology, 2021
